

PRODUCT SUMMARY

Filters & Components

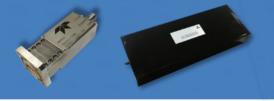

Specialists in custom, passive and digital high performance filters with frequency coverage of 10MHz to 50GHz covering all bands from L to Q/V

LEARN MORE

Multi Function Assemblies

Adaptive filtering modules, amplifiers, tuneable filters and high power filtering products LEARN MORE

Frequency Generation

Specialists in frequency generation and high stability frequency conversion products LEARN MORE

Systems

Fully capable, compact, affordable, integrated EW sensor systems—Phobos Radar Warning Receiver LEARN MORE

Receivers & Digitisation

Analogue to digital receivers, full bandwidth filtering, frequency measurement and signal detection
