

## Teledyne Defence & Space winners of Queen's Award for Enterprise 2019 for International Trade

SHIPLEY, WEST YORKSHIRE, UK – April 25, 2019 – [Teledyne Defence & Space \(TDS\)](#), part of the [Teledyne Defense Electronics Group](#), announced today that it has been honoured with the prestigious Queen's Award for Enterprise 2019 for International Trade.

The accolade for Teledyne Defence & Space is in recognition of both its [innovative technology](#) and its substantial growth in overseas earnings. In recent years, TDS has expanded into new commercial markets like space, most recently with [the award of a \\$95 million production contract](#) to develop and manufacture critical microwave communication products to support the Airbus OneWeb mega constellation of Low Earth Orbit (LEO) satellites.

"We are delighted to win such a prestigious award which recognises our achievement in core business growth and in recent years gaining a strong position in the space sector, producing significant growth across both UK and international markets," said Ian Skiggs, Vice President & General Manager of Teledyne Microwave Solutions UK, the parent company of TDS.

"We are working to further expand our footprint in space to achieve our strategic goal of a sustainable, highly skilled, regional business enterprise recognised as a technology leader in the space sector," he added. "By doing so, TDS will also help generate more regional business investment and jobs across the Yorkshire region".

Now in its 53<sup>rd</sup> year, the [Queen's Award for Enterprise](#) are the most prestigious business awards in the UK, with winning businesses able to use the esteemed Queens Award emblem for the next five years.
