

Teledyne Defence & Space winners of Queen’s Award for Enterprise for second consecutive year

Shipley, West Yorkshire – 29, April 2020 – Teledyne Defence & Space (TDS), a business unit of Teledyne UK, is proud to announce it has been honoured with a prestigious Queen’s Award for Enterprise 2020 for Innovation.

The accolade is in recognition of the development of a flexible, low profile, power efficient payload for satellite communication.

This follows on from the success of being awarded with the Queen’s Award for Enterprise 2019 for International Trade.

“We are delighted to win such a prestigious award recognizing our commitment to developing innovative solutions to help shape the future of space based communication networks connecting people around the globe,” said Daron Winspear, Site Director at Teledyne Defence & Space. “To receive a second Queen’s Award in as many years is one of our proudest achievements and is testament to the hard work and dedication of our colleagues”.

Now in its 54th year, the Queen’s Award for Enterprise are the most prestigious business awards in the country, with winning businesses able to use the esteemed Queens Award emblem for the next five years.
